

Naitri Resources Pvt Ltd

“

**Driving Industrial
Excellence with
Innovative
Engineering &
Professional Services.**

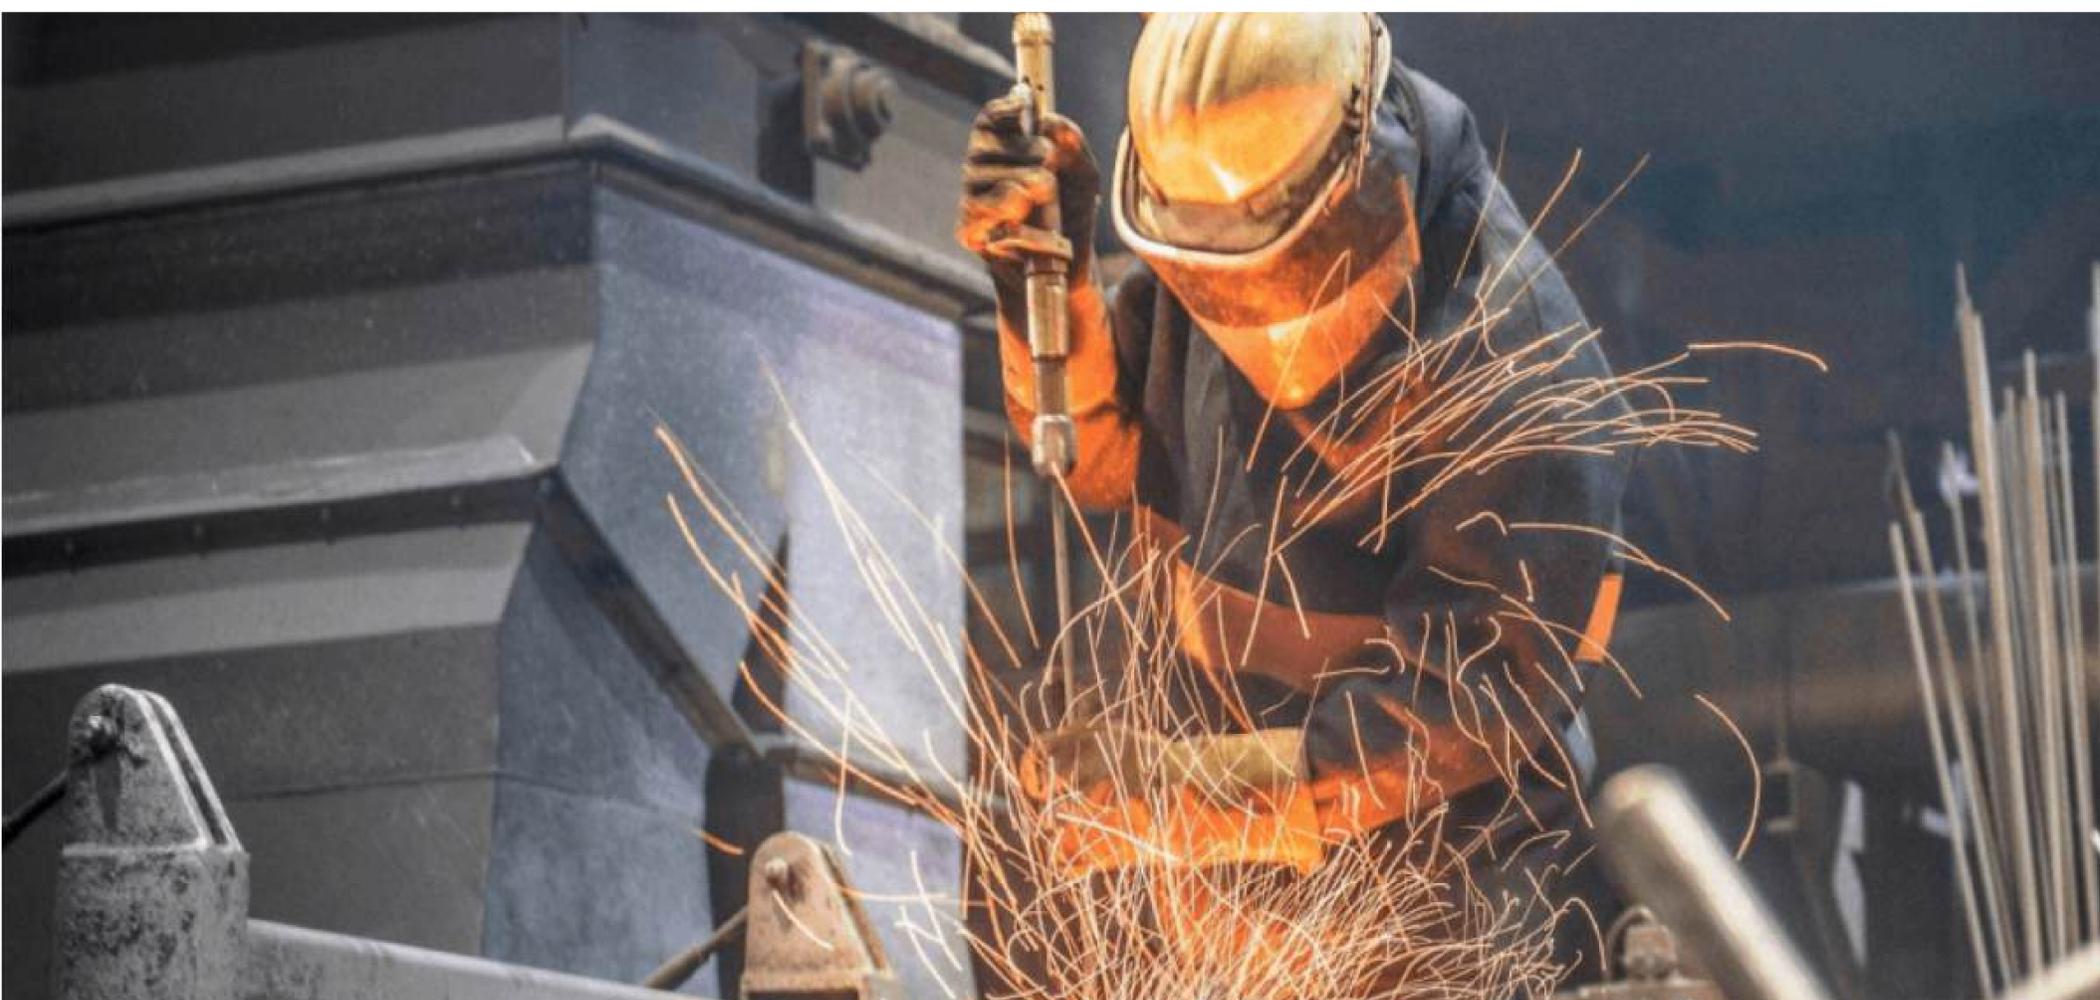

COMPANY OVERVIEW

Naitri Resources Pvt. Ltd. carries forward an industrial legacy established in **1996 under Patel Enterprises**. For decades, we have delivered trusted industrial and manufacturing services, building a strong foundation of reliability, experience, and client satisfaction. In 2024, this legacy continues as **Naitri Resources Pvt. Ltd.**, with the same commitment to quality, efficiency, and service excellence.

Based in Surat, Gujarat, India, Naitri Resources supports manufacturing and logistics businesses with comprehensive services – including manpower supply, plant maintenance, warehouse operations, and material handling. Our mission is to strengthen industrial performance through operational excellence and workforce quality.

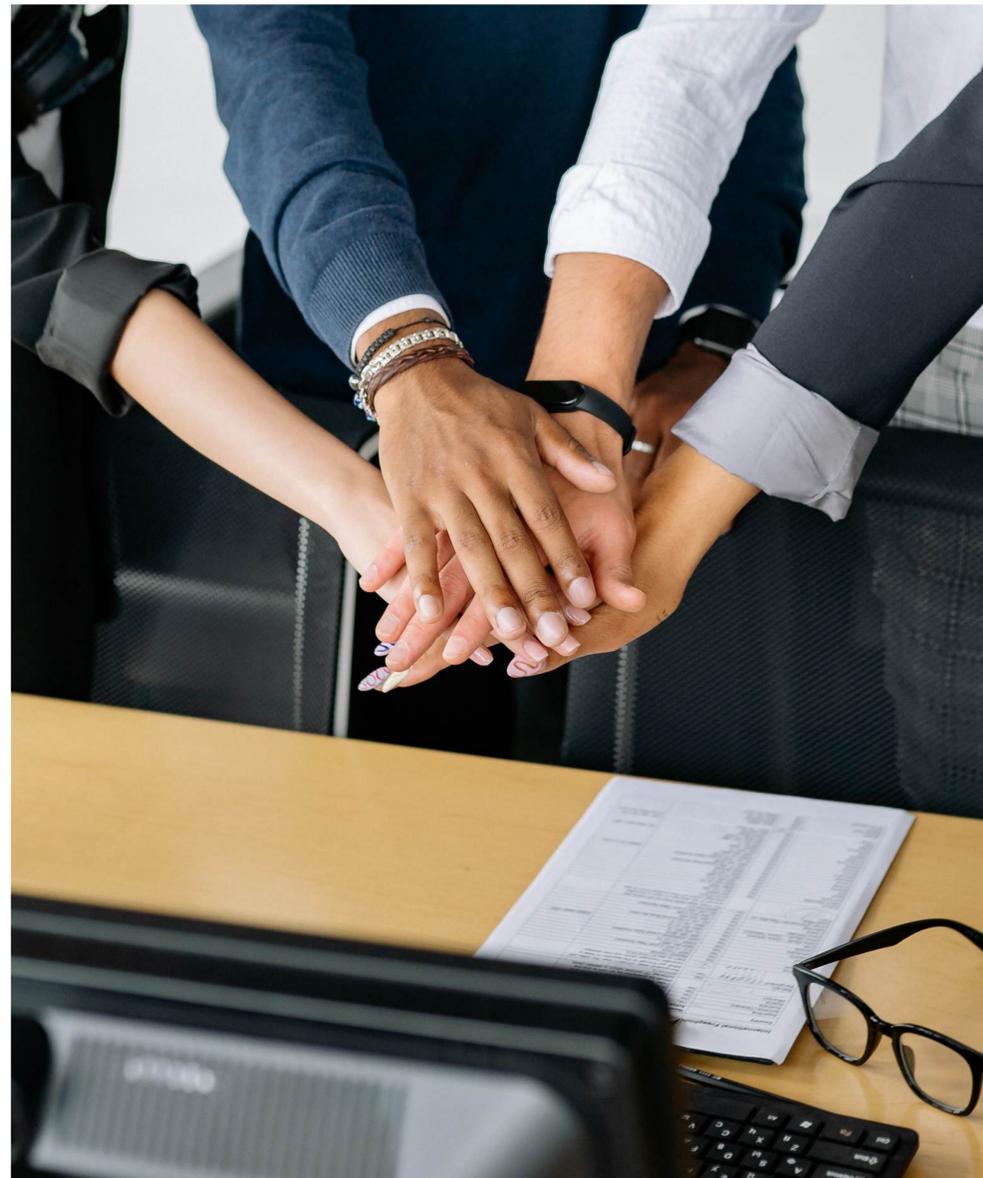

With deep industry understanding, we provide customized, reliable, and cost-effective solutions tailored to client needs. Our experienced team ensures smooth operations, safety compliance, and improved productivity while building long-term partnerships through dependable service and measurable results.

Our Mission

To empower Indian industry with reliable workforce solutions and optimized operational support that enhances productivity while reducing overhead.

- Provide skilled and dependable manpower tailored to diverse industrial requirements.
- Deliver efficient plant maintenance, warehouse, and logistics support to ensure smooth and uninterrupted operations.
- Enhance productivity through optimized workflows, strict safety compliance, and long-term client partnerships built on reliability and excellence.

Our Vision

To be a key industrial partner for companies across sectors – paving the way for safer, smarter, and more efficient operations.

- Become a trusted industrial support partner across manufacturing and logistics sectors.
- Drive innovation and continuous improvement while expanding our service reach with uncompromised quality.
- Contribute to India's industrial growth through sustainable, workforce-focused solutions and operational excellence.

Core Value Proposition

Why Choose Naitri Resources?

At Naitri Resources, we deliver comprehensive industrial services designed to support every operational need of manufacturing and logistics businesses. Our solutions are engineered to add value, reduce operational burden, and help clients achieve measurable performance improvements.

- **End-to-End Industrial Support** – From on-site manpower solutions to equipment handling and efficient warehouse operations, we manage every aspect of your industrial workflow with precision and reliability.
- **Safety & Compliance** – Our teams are trained rigorously in industry best practices and safety standards, ensuring that every job is executed with full regulatory adherence and a strong focus on worker well-being.
- **Flexible Service Models** – Whether you need short-term staffing, project-based support, or long-term operational assistance, we tailor our services to match your unique business needs, timelines, and scaling goals.
- **Result-Driven Approach** – We are committed to reducing downtime, maximizing productivity, and improving overall operational performance through proactive planning, real-time responsiveness, and continuous improvement.

With a client-centric mindset and deep industry expertise, Naitri Resources stands out as a dependable partner for companies seeking practical solutions, consistent quality, and measurable impact.

“

At Naitri Resources, we don't just provide industrial services – we become an extension of your operations. With skilled manpower, structured processes, and a commitment to safety and performance, we help businesses run smarter, faster, and more efficiently. Partner with us to transform operational challenges into measurable growth and long-term success.

Our Full Service Offering

Solutions That Empower Your Operations

Plant Operations & Maintenance

Reliable operational support ensuring efficient plant performance and uptime.

Warehouse operations

Accurate inventory flow and storage management for seamless warehouse operations.

Engineering & General store operation services

Professional handling and store operations for organized materials and tools.

MHE suppliers

Top-quality material handling equipment supplied to meet operational needs.

MHE O&M

Comprehensive upkeep of handling equipment ensuring performance and reliability.

Construction equipment & Vehicle suppliers

Durable construction machinery and vehicles supplied for heavy operations.

Chemical handling & Materials handling

Safe handling solutions for hazardous chemicals and industrial materials.

Housekeeping services

Clean, compliant work areas maintained for safety and efficiency.

Packaging services

Secure and durable packaging solutions for storage and transportation.

Service Spotlight With Extended Benefits

How Our Services Deliver Value

Manpower Supply:

We screen and deploy trained workers for assembly, handling, logistics, loading/unloading, forklift operation and more – ensuring higher productivity and reliability.

Warehouse Optimization:

Improve space utilization, reduce handling errors, and increase fulfillment speed with structured operational workflows and systematic inventory control processes

O&M Services:

Proactive maintenance plans that help reduce costly breakdowns and extend machinery lifespan through scheduled inspections, preventive servicing, and performance monitoring systems.

OUR VALUED CUSTOMERS :

Industry Domains We Serve

Built for Diverse Industrial Needs

We proudly support a wide range of sectors that rely on efficient operations, workforce strength, and cutting-edge equipment:

- **Manufacturing Plants**
- **Logistics & Distribution Centers**
- **Construction & Heavy Equipment Handling**
- **Chemical & Material Processing**
- **Engineering & Fabrication Facilities**
- **Warehousing & Inventory Storage**

Each industry benefits from tailored execution, compliance verification, and detailed performance analytics that align with sector requirements.

Our Proven Process

How Our Services Deliver Value

Our six-step operational methodology ensures transparent engagement and measurable results:

- 1 Consultation & Audit**
We begin by understanding your challenges and current operations.
- 2 Customized Service Proposal**
A tailored plan designed to meet your specific operational goals.
- 3 Deployment & Implementation**
Skilled teams and equipment are deployed seamlessly.
- 4 Quality Monitoring & Reporting**
Continuous performance tracking and outcome reporting.
- 5 Performance Optimization**
Review and adjust strategies to keep improving efficiency.
- 6 Continuous Support & Review**
Ongoing assistance and process refinement to support long-term success.

This structured process ensures a smooth onboarding experience and delivers reliable, measurable operational improvements.

Success Stories

Trusted by Industrial Teams Across Sectors

At Naitri Resources, our work is measured by the operational improvements we help our clients achieve. From workforce reliability to warehouse efficiency and plant uptime – we focus on results that directly impact productivity and cost savings.

OPERATIONAL IMPACT HIGHLIGHTS

Increased Warehouse Throughput

“Improved our warehouse throughput by over 30% within the first few months of deployment. Their team streamlined our handling processes and improved coordination across shifts.”

Seamless Workforce Integration

“Quality manpower supply that blends seamlessly with our operations. The team required minimal supervision and adapted quickly to our systems.”

Reduced Maintenance Costs

“O&M support that helped reduce maintenance expenses significantly while improving equipment reliability and uptime.”

Improved Safety & Compliance

“Better housekeeping and equipment handling practices enhanced our workplace safety standards.”

Equipment & Resource Showcase

Equipment/Vehicle

- Forklift 3 MT
- Forklift 5 MT
- JCB Backhoe Loader
- JCB Excavator
- JCB Telehandler
- JCB Roller 12 MT
- TATA Tipper / Dumper 10 Tyre (16 MT)
- TATA Tipper / Dumper 12 Tyre (22 MT)
- Ashok Leyland Tipper / Dumper 16 tyre (36 MT)
- Eicher Tempo 8 MT
- TATA Tempo 8 MT
- Ashok Leyland Tempo 1.5 MT
- Tempo for Vehicle / Equipment Maintenance
- Hydra (farana) NGH trailer - 40 ft 20 mt
- and other on demand

Tools That Power Performance

We provide a range of essential equipment that boosts efficiency, safety, and throughput across industrial environments:

Forklifts & Loaders

High-performance machines designed to lift and transport heavy goods efficiently, reducing manual labor and accelerating material movement across facilities.

Conveyors & Automated Handling Systems

Continuous material movement systems that reduce manual handling time and maintain smooth process flow.

Handling Gear & Safety Equipment

From lift tables to stackers and positioning tools, these assets enhance operational safety and efficiency.

Heavy-Duty Vehicles & Machinery

Construction-ready loaders, vehicles, and handling machinery built for heavy-duty performance

Precision Handling Tools

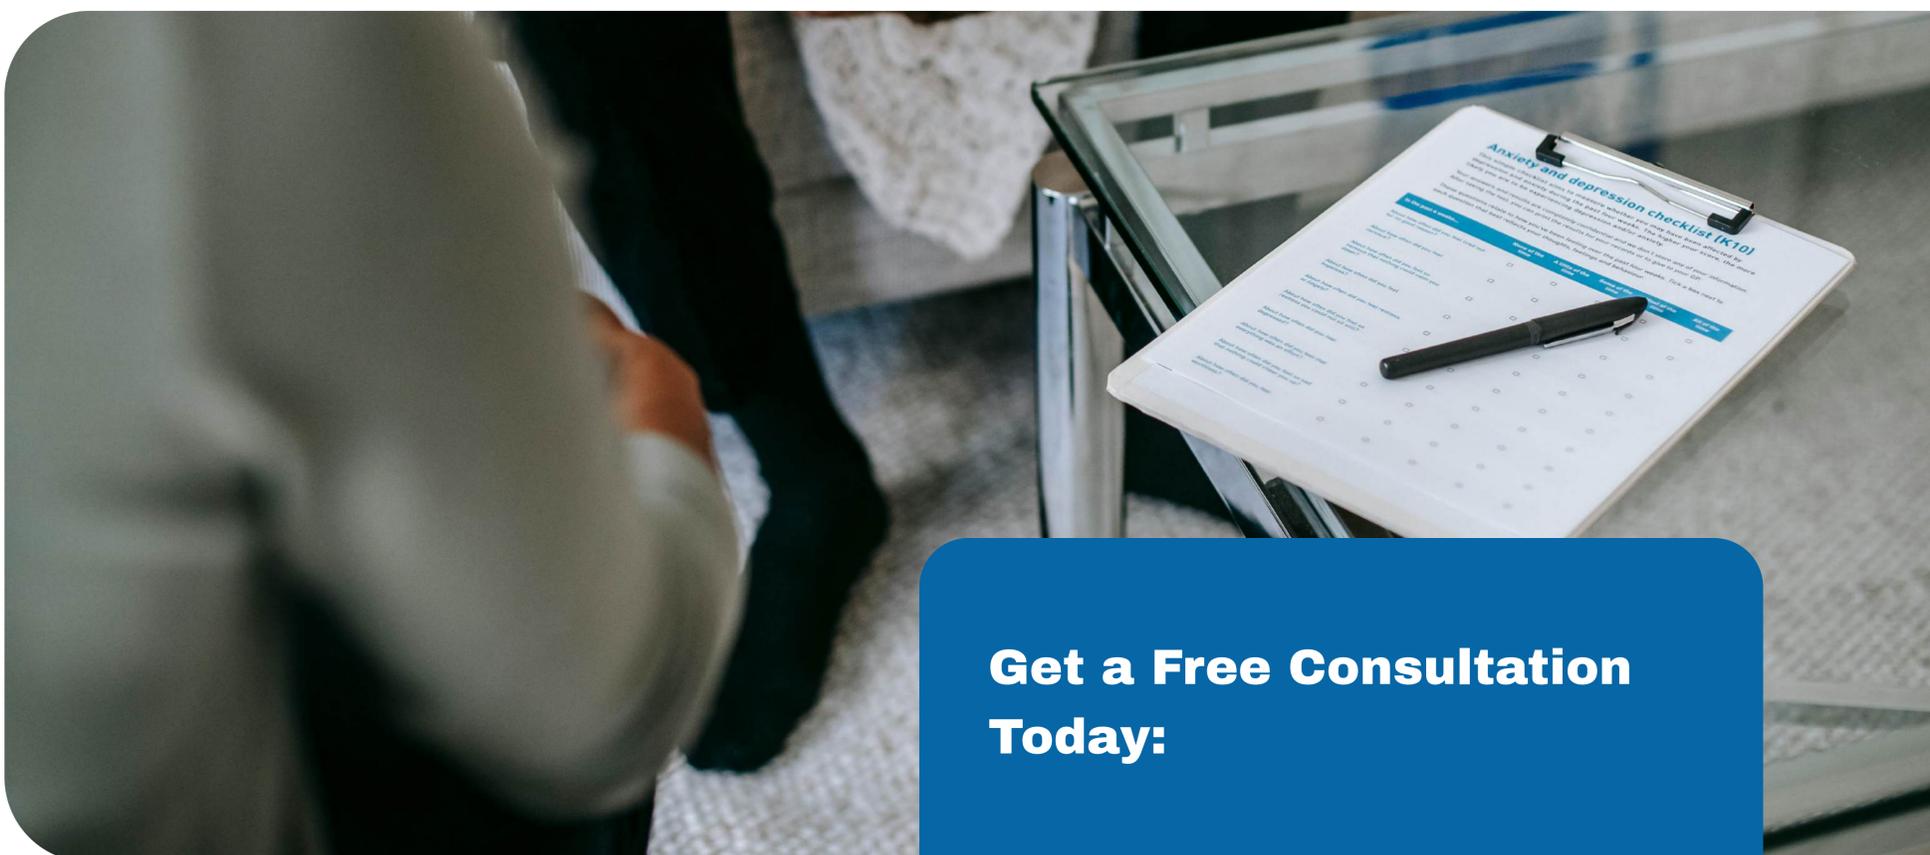

Specialized equipment like drum handlers, lift tables, pallet jacks, and racking systems..
